

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 7  
901 NORTH 5TH STREET  
KANSAS CITY, KANSAS 66101

**CONFIDENTIAL**

**MEMORANDUM**

**SUBJECT:** Radiation- Standard Products, Inc. Superfund Site- Site ID # A7N1  
Radiation-Standard Precision, Inc. Superfund Site- Site ID # A7N3

**FROM:** Denise Roberts   
Senior Assistant Regional Counsel

**TO:** Randy Schademann, OSC for Radiation- Standard Products, Inc. Superfund Site  
Megan Schuette, OSC for Radiation-Standard Precision, Inc. Superfund Site

The Superfund Division Director signed the Enforcement – Lead Action Memorandum for the Radiation- Standard Products, Inc. Superfund Site on or about July 7, 2011, and the Enforcement – Lead Action Memorandum for the Radiation- Standard Precision, Inc. Superfund Site on or about July 29, 2011.

At the time, the U.S. Environmental Protection Agency believed that a/the potentially responsible part(y)ies would be conducting the removal actions at both Sites. The draft Enforcement – Lead Action Memoranda were properly prepared and routed to be included in the potentially responsible party negotiations.

However, the intent was to prepare both Enforcement – Lead Action Memoranda and leave in draft form until any potentially responsible party signed an Administrative Order on Consent to conduct the respective removal actions. This did not occur and the Enforcement – Lead Action Memoranda were routed for concurrence through the Superfund Division Director in error.
